

## Murder suspects bound over to Grand Jury

John “Fatman” Smith, 41, Dubree Rd., Tompkinsville, and Chasity Hagan, 34, Homer Bartley Rd., Summer Shade, both had their cases bound over to the Monroe County Grand Jury after a preliminary hearing on Tuesday, May 1 in Monroe District Court.

Smith and Hagan were charged in the murder of Brenda Faye Howard, 64, of 3229 Ebenezer Rd., Tompkinsville, after Howard was found beaten and stabbed in her home on Friday night, April 20.

Smith and Hagan were both officially charged with murder and burglary later Saturday afternoon, April 21, and lodged in the Monroe County Jail. (Hagan was later moved to Barren County Detention Center.)

At their arraignment on Tuesday, April 22, Hagan’s charges were amended to complicity to commit murder and complicity to commit burglary.

During this week’s preliminary hearing, Smith (represented by Public Defender Sandra Downs) and Hagan (represented by Public Defender Greg Berry) were present to hear evidence gathered against them to determine if enough cause was found to bind the case over to the Monroe Circuit Court.

During the preliminary hearing, Judge Kristi Castillo heard testimony from Kentucky State Police Detective Ricky Brooks, who was the lead investigator on the case.

County Attorney Wes Stephens conducted the questioning for the prosecution as Brooks took the stand and detailed the contact from Monroe County Sheriff’s Department on Friday night, April 20, which requested KSP assistance in

the investigation of Howard’s murder.

After interviewing several family members of the victim, Brooks said, officers learned that Chasity Hagan had been involved in an argument with Howard on Wednesday, April 18.

Brooks noted that later that night he went to Homer Bartley Road, Summer Shade, to Hagan’s residence to interview her and noted that during the interviews, Hagan gave three different accounts of the events.

The first two recorded statements denied involvement, he said, while the third admitted she had been inside the door of Howard’s home during the event.

She made several different statements, Brooks testified, including that Smith was involved in the incident, that she drove to the Howard residence and parked in a nearby ditch line to make it appear that the car had broken down and that they entered through an open door of the Howard residence. Hagan continued, Brooks said, that Smith struck Howard in the left side of the head with an ax handle “making blood go everywhere.”

Under cross examination by Hagan’s attorney, Brooks noted that fingerprints and DNA evidence had been sent to the KSP laboratories for analysis, that an ax handle had been found in the trunk of the 2000 burgundy Saturn at the Hagan residence which had a large amount of blood on it, and that three to four inches of a broken knife blade fell out of Howard’s head upon examination. Brooks continued that Hagan’s clothing had been seized and sent to the lab for analysis as well. However, Brooks added that no visible blood was noticed on Hagan during the inter-

view, as well as the fact that no blood was found on her footwear (which was also sent to the lab for analysis as well as a footprint found at the scene). He also testified that Hagan stated that she had “run out of the house during the assault” and that “she was assaulted by John Smith,” striking her in the left leg with an ax handle, showing the bruises to another detective.

Continuing on cross examination, Brooks told the Court that Hagan first stated she had been dropped off in the weeds as a lookout and that a pair of female size 16 jeans and a pair of male jeans size 38x32 were both found in the trunk of Hagan’s car with blood evidence, “which shows they were at the scene,” Brooks added.

A purse was located in Hagan’s car’s trunk which continued personal paperwork belonging to Howard, Brooks added. he also noted that no prescription drugs were found at the Howard home.

Attorney Downs then took over the cross examination at that time and Brooks noted that Smith had made one recorded statement with Detective Russell Decker and himself.

Brooks then noted that Detective Jamie Richards attended the autopsy conducted on Howard. Downs questioned how many times the victim was stabbed and Brooks stated, “I have not seen the autopsy report. All I know is she had head trauma and a punctured left lung.”

Brooks restated the fact that Hagan was believed to have had an argument with Howard in the days prior to the murder and that two

## Murphy named UK Male Scholar Athlete of the Year

Billy Joe Murphy of Gamaliel has been named the University of Kentucky’s Male Scholar Athlete of the Year.

A UK senior who played offensive tackle on the UK football team for five years, he was recognized during the annual CATSPY Awards program, held April 23, at UK’s Memorial Coliseum, where athletic and academic performance during the 2011-12 school year was recognized.

The son of Joe B. and Lori (Downing) Murphy of Gamaliel, he was a 2007 graduate of Monroe County High School, where he helped lead the Falcons to the state playoffs during both his junior and senior years.

A kinesiology major, Murphy received the Hackensmith Award as the Most Outstanding Undergraduate Kinesiology Student in the UK College of Education. He is a five-time member of the SEC Athletic Academic Honor Roll and has been active in community service, volunteering through Read Across America at Dixie Elementary School. This is his second year on the Athletic Academic All-District IV Team.

With the UK football team,

he was redshirted as a freshman in 2007, played seven games the following year and in all the games the following two seasons, starting six games as a junior. As a senior this past fall, he was a full-time starter at right tackle and also was a game captain in 2011. During his UK career, he played in 43 games, starting in 19 of them.

He was described by his coaches as “extremely valuable as the utility man on the offensive line ... a very intelligent player who can plug in at any of the guard or tackle positions.”

UK head coach Joker Phillips said last fall that Murphy was “a journeyman around here his whole career, (who) played every position (in the offensive line) except center” before earning the full-time right-tackle

role as a senior.

Earlier this year, Murphy was one of 17 UK student-athletes inducted into the Frank G. Ham Society of Character, which recognizes student athletes who have shown extraordinary commitment to academic excellence, athletic participation, personal development, career preparation and serving as a role model.

Wood reported that he had let off the brake and began to accelerate when the Strode vehicle pulled back into his path and he was unable to avoid a collision.

ax handles were found in Hagan's car, one of which had blood on it.

Smith was located in a wooded area, Brooks added, by a KSP K-9 unit in a cabin approximately 300 yards behind the Hagan residence.

Brooks added that when Smith was apprehended he was wearing a National Wild Turkey Federation cap which also appeared to have blood on it, and this cap has also been sent for analysis.

Downs questioned the blood found on the hat, asking if he could determine if it was “old blood or new blood.” Brooks stated he could not determine that fact but the item had been sent to the lab for evaluation. She also questioned where the knife blade was broken, with Brooks answering that he could not ascertain that

as well as the fact he was unable to tell with certainty what type of knife it had come from.

Brooks also noted that three cell phones were recovered, two in the center console of Hagan's car and one (a Trac-phone) in Smith's pocket. He added that a preservation order had been sent to the phone companies and officers are waiting for warrants to get the records. Downs questioned the information received from the phones but Brooks answered that warrants had not been received yet; therefore no information had been obtained.

Judge Castillo ruled separately on each case that probable cause exists in both cases to bind the matter over to the Monroe County Grand Jury.

## Farmers Market to open on May 15

Farmers markets provide a chance for the public to get high quality, fresh foods and support farmers in their community. Selling at the markets gives farmers a chance to tell others about their operation and agriculture in general.

In the past few years, people's interest in farmers markets has climbed. The renewed interest is likely due to people trying to improve their diets and increasing awareness about the environmental benefits of buying foods from local farmers. Because of this, people, who have never been to a farmers market before, may be planning to go to a farmers market this year.

If you have never been to a farmers market, you should know that most vendors are locally based. When you buy from them, you are contributing directly to your local economy. Most of these vendors have small operations and because of their operation's size, cannot sell their produce to large commercial wholesalers. Additionally, many producers incorporate sustainable measures into their agricultural practices to preserve the quality of their soil and water and minimize the use of chemicals on their products.

When you buy from a farmers market, you are likely buying produce that is at the peak of its freshness and picked within a day or two of coming to the market. Look for produce that is in-season. Some examples of in-season produce are as follows:

\* Spring: asparagus, blackberries, lettuce, peas, spinach

and strawberries

\* Summer: blueberries, cherries, cucumbers, green beans, melons, okra, sweet corn, tomatoes and zucchini

\* Fall: apples, broccoli, cauliflower, collard greens, pears, pumpkins, squash and sweet potatoes

\* Winter: beets, cabbage, carrots, onions, winter squash and turnips

Good produce does not mean it is without aesthetic flaws. High-quality fruits and vegetables are crisp and brightly colored. For some fruits, like a peach or melon, a strong scent means they are perfectly ripening. Produce that is limp, soft or not crisp is likely over ripe and beginning to lose some of its nutritional value, texture and flavor.

If you are not going to use the produce immediately, make sure it is safely stored to maintain its quality and freshness. You should store fresh fruits and vegetables for as little time as possible as they will lose nutrients and quality over time. Potatoes, onions and winter squash should be stored in a cool, dark place, unwashed. Keep all other vegetables refrigerated at temperatures at or below 40 degrees Fahrenheit. Place peeled or cut produce in tightly covered containers within two hours.

The Farmers Market in Monroe County will open on Tuesday, May 15. The market is located behind Wal-Mart in the industrial park. The hours of operation are Tuesday and Thursday 10 a.m. until sell out and Saturday 8 a.m. until sell out.

## JOHN EDD SHIRLEY

John Edd Shirley, age 69, of Tompkinsville, peacefully passed from earth to heaven on Monday, April 23, 2012, at his home on the Shirley farm.

He was born on the family farm in the Sand Lick community of Monroe County on Jan. 26, 1943 to W. R. "Rad" and Lucille (Martin) Shirley. John Shirley's life was a life well lived. He married his high school friend, Lula Cross on Aug. 4, 1962 and they began their journey together which lasted 50 years. Everything he did he did with passion and enthusiasm. His love of God was the cornerstone on which he based his life.

Immediately following high school, he enrolled at Western Kentucky University. After three semesters he joined the Air Force where he worked in intelligence. He was a man of great integrity and a man who was comfortable in his own skin. His successes include three children and seven grandchildren that love him, a marriage that is still a love affair, a career path that he enjoyed and was successful in and people all over the world that call him friend.

## Happy Belated Easter!

The Celebration of our risen Savior is over for this year. People made their annual pilgrimage to their church of choice and have moved on to the next project. What a sad reality for so many. Too many miss the opportunity to live the abundant life that Jesus Christ shed His blood to acquire for whosoever will. Many of us who are sitting in our favorite pews Sunday after Sunday also miss the opportunity to celebrate a risen Savior each day of our lives. We forget that Jesus is Lord and King of Kings. Jesus has done it all for us. We allow the influences of the world to rob us of our heritage of being a child of the King. Romans 6:4-6, states "Therefore we are buried with Him by baptism into death; that like as Christ was raised up from the dead by the glory of the Father, even so we also should walk in newness of life. For if we have been planted together in the likeness of his death, we shall be also in the likeness of his resurrection. Knowing this, that our old man is crucified with him, that the body of sin might be destroyed, that henceforth we should not serve sin." 1 Corinthians 1:18-25 states, "For the preaching of the cross is to them that perish foolishness; but unto us which are saved it is the power of God. For it is written, I will destroy the wisdom of the wise, and will bring to nothing the understanding of the prudent. Where is the wise? Where is the scribe? Where is the disputer of this world? Hath not God made foolish the wisdom of this world? For after that in the wisdom of God the world by wisdom knew not God, it pleased God by the foolishness of preaching to save them that believe. For the Jews require a sign, and the Greeks seek after wisdom. But we preach Christ crucified, unto the Jews a stumbling block, and unto the Greeks foolishness; But unto them which are called, both Jews and Greeks, Christ the power of God, and the wisdom of God. Because the foolishness of God is wiser than men; and the weakness of God is stronger than men." Do not miss the opportunity to celebrate each day a risen Savior Jesus Christ!

## NEWS FROM

### MAY IS STROKE AWARENESS MONTH - BE INFORMED!

\* Stroke is a leading cause of death in the United States. Over 800,000 people die in the U.S. each year from cardiovascular disease and strokes.

\* A stroke, sometimes called a brain attack, occurs when a clot blocks the blood supply to the brain or when a blood vessel in the brain bursts.

Someone in the United States has a stroke every 40 seconds. Every four minutes someone dies of stroke.

\* Every year, about 795,000 people in the United States have a stroke.

About 610,000 of these are first or new strokes. About 185,000 people who survive a stroke eventually have another.

\* Stroke is an important cause of disability. In 2005, nearly 1.1 million stroke survivors reported difficulty performing basic activities of daily life.

\* In 2010, the estimated cost of stroke in the United States was \$53.9 billion. This total includes the cost of health care services, medications, and lost productivity.

\* Common stroke warning signs and symptoms include—

\* Sudden numbness or weakness of the face, arm, or leg—especially on one side of the body.

\* Sudden confusion, trouble speaking or understanding.

\* Sudden trouble seeing in one or both eyes.

\* Sudden trouble walking, dizziness, loss of balance or coordination.

\* Sudden severe headache with no known cause.

\* You can't control some stroke risk factors, such as

heredity, age, gender, and ethnicity. Some medical conditions, including high blood pressure, high cholesterol, heart disease, diabetes, overweight or obesity, and previous stroke or transient ischemic attack (TIA), can raise also your

stroke risk. Not smoking, not drinking excessively, and getting exercise are all choices you can make to reduce your risk.

## Act F.A.S.T

### Face

Ask the person to smile. Does one side of the face droop?

### Arm

Ask the person to raise both arms out. Does one arm drift downward?

### Speech

Ask the person to repeat a simple phrase. Is their speech slurred or strange?

### Time

If you observe any of these signs, call 911 immediately and tell the operator you suspect the victim may be having a stroke.

FROM  
THE  
SOWER®  
Michael A. Guido  
Metter, Georgia

God has one Son without sin, but He has no sons without suffering.

Suffering oftentimes brings out talents which in prosperous circumstances would have lain dormant.

John Bunyan was incarcerated in Bedford Jail. There he wrote *Pilgrim's Progress*.

Victor Hugo was exiled. Then he wrote one of the world's greatest novels, *Les Miserables*.

Robert Louis Stevenson was confined to his bed by sickness. Then he wrote *Treasure Island* and *Dr. Jekyll and Mr. Hyde*.

Suffering will make you better or bitter. Submit yourself to God, and your suffering will make you better.

Extension Notes — Lara Savage,  
Monroe County Extension agent

**SECOND SATURDAY AT FARMERS MARKET WILL HAVE FOOD DEMONSTRATIONS AND SAMPLES**

The second Saturday of each month, County Agent Lara Savage will be at the Farmers Market for “Plate it Up Kentucky Proud” with food demonstrations, free seasonal recipes, and free samples of dishes made with products available at the market.

Here is a sample of what you might learn at the market this summer from the Second Saturday “Plate it Up Kentucky Proud” events:

Kentucky Strawberries: What delicious Kentucky Proud fruit is the most popular crowd favorite? From late April to July, fresh strawberries certainly could be the most delightful winner! Kentucky strawberries always deliver satisfying flavor — whether it’s found in scrumptious strawberry pie, luscious strawberry preserves, or a yummy fresh berry snack! Not only do they have mouth-watering appeal, but strawberries provide great healthy benefits. Weight watchers can enjoy the fact that a ½ cup serving of sliced berries has only 25 calories. Of all berries, strawberries are highest in vitamin C, with a ½ cup serving providing 80% of recommended daily values.

When selecting berries at your farmer’s market or grocery, stay away from containers of berries with juice stains which may be a sign that the berries are crushed and possibly moldy; soft, watery fruit that means the berries are overripe; dehydrated, wrinkled fruit that means the berries have been stored too long. Strawberries should be a bright shade of red and the caps on the berries should be green and fresh looking. Berries that are green or yellow are unripe and will taste sour. In general, berries should be dry, firm, well-shaped, and eaten within a week after purchase. If you can’t eat them that soon, remember that berries freeze well! It’s best to buy berries that are ‘in-season’ as they’ll cost less and are more ripe and flavorful than ‘out-of-season’ berries.

After purchasing berries, check the fruit and toss out any

moldy or deformed berries. Eat overripe berries within 24 hours. Return the other berries back to the original container or they should be arranged unwashed in a shallow pan lined with paper towels, and washed just prior to use. The berries may be topped with a paper towel to absorb any additional moisture. Put plastic wrap over the entire container. This will ensure the fruit retains its freshness.

Strawberries are a great snack, especially in unusual combinations with other popular Kentucky fruits and vegetables. This unique tea recipe combines the sweet tart tastes of ripe strawberries with green tea, honey, and lemon. Don’t be afraid to try it —you’ll get a cool, clean and refreshing taste that’s sure to become a family favorite!

**Strawberry Green Tea**  
13 cups water  
13 green tea bags, regular size  
1 pound strawberries  
1 cup honey  
1 lemon, optional

Wash strawberries and remove the tops. Chop the berries with a hand chopper in a large pot. Add water to the chopped berries and bring to a boil, stirring occasionally. Remove from heat and let mixture cool for 5 minutes. Add tea bags and submerge. Steep tea for 2 to 3 minutes. Strain the tea through a mesh strainer or cheesecloth lined colander into a 1-gallon pitcher. Add honey and stir until dissolved. Chill and serve. Garnish with a lemon slice or a fresh strawberry if desired. Yield 16, 8-ounce servings. ### May 22, 2012

For those of you who may not know me very well, I would like to take this opportunity to share a bit about myself. I grew up in the Akersville community of Monroe County, near Fountain Run. I am the daughter of Arthur Patterson and the late Sandra Holland Patterson who passed away unexpectedly in 1995. My father is a retired construction superintendent and my mother was a hairdresser. I have one sister, Christy Patterson Blackwell of Hartsville, Tn.

In 1986, I married Todd Burgess of Gamaliel. He is the son of Jerry and Judy Burgess. Todd manages our family business, B & B Farm Supply in Gamaliel and is also a member of the Monroe County Board of Education. Todd has one sister, Stephena Cleary of Gamaliel who is married to Shawn Cleary formerly of Tompkinsville.

Todd and I have two daughters Terin Coe and Gabrielle Burgess. Terin is married to Jeb Coe, the son of K.C. and Kimberly Coe, Tompkinsville and Kimberly VanDyke, Portland, TN. Jeb and Terin have a two year old son, Jesse and are expecting a baby girl any day. Gabrielle is a sophomore at the University of Kentucky.

I am a 1985 graduate of Gamaliel High School. I graduated with honors in 1991 from Western Kentucky University with Bachelor of Science Degree in Dental Hygiene. I have worked as a dental hygienist for almost 21 years now, with the last 15 years at the same practice in Glasgow, KY.

Now, why do I think you should vote for me as your next circuit court clerk? .... because I will work hard to serve you, the citizens of Monroe County! I have a very strong work ethic. I worked several jobs while attending college as well as being married and having a child. I worked almost every summer in a sewing factory, either Kentucky Apparel, Inc., in Fountain Run or Stitches, Inc., in Red Boiling Springs. I was a substitute teacher and relief postmaster for some time and also worked campus jobs when necessary. My point is that I will do my best to serve you to the best of my ability. I love Monroe County and I want to be here. My goal is to make sure the circuit clerk's office is run efficiently as well as being a pleasant environment for both those doing business there and the employees.

Todd and I, as well as most of our family, are members of White Oak Ridge Missionary Baptist Church. I am a Christian, though far from perfect. I am a firm believer in prayer and know that I have been led down this path. We have had challenges to face with Todd's health and with that of his Uncle Flapper. God has heard and answered our prayers. They are both doing well.

I am very encouraged by so many people who have given me their support. I am still working hard campaigning as well as working my regular job in Glasgow. If I fail to see you face to face, I apologize. But, please know that I am trying very hard to do so. I have a facebook page: "Elect Kerrie Burgess Monroe County Circuit Court Clerk" if you would like to keep up with my campaign.

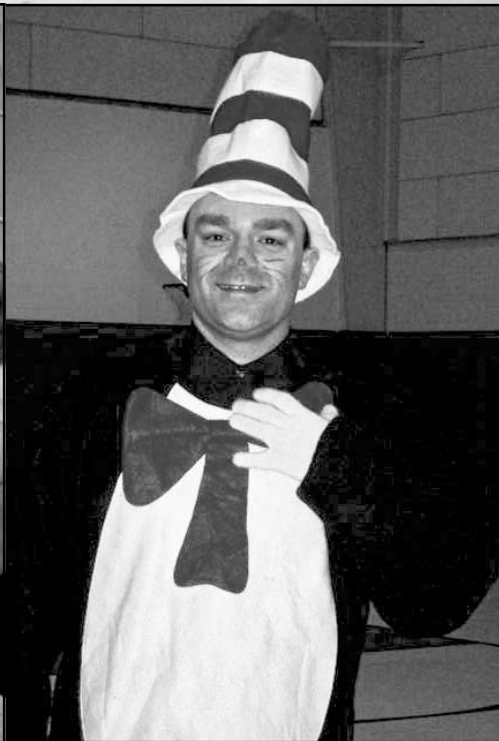

*I am humbly asking for your vote on May 22 in the Republican Primary. It will be greatly appreciated!*

## Monroe County Bass Club holds two tournaments

The Monroe County Bass Club held its first tourney of the year on Barren River on Saturday, March 31. While the tourney started on a cold morning, it finally started warming up by noon. Catch was fairly good, coming on jigs, plastic, and crank baits.

First place went to Jerry Turner and David Comer with 14.39 pounds and Big Fish going to David Comer with 5.32 pounds. Second place went to Randy Walden and Chase Comer with 10.86 pounds.

The April tourney was also on Barren River on Saturday, April 21. The day started out

rainy, cold, and windy but with a great catch. Baits used were jigs, shaky head, and crank baits. First place went to Casey Wright and Ken Holbrook with 14.97 pounds. Second place went to Randy Walden and Michael Clarkson with 13.94 pounds. Big Fish went to Paul Davis, with a catch of 4.61 pounds.

The next tournament will be on Lake Barkley on Saturday, May 5, and Sunday, May 6.

Anyone wanting to join the club is welcome to attend our meetings, held every first Monday of the month at Backyard BBQ at 6:30 p.m.

## Middle school chess team win first place, high school team wins third

A dozen students from Monroe County Schools participated in the fourth WKU Scholastic Chess Tournament in April, with almost \$30,000 worth of scholarships on the line. The middle school team finished in first place as a team with Harrison Froedge, Justin Jones, and Aaron Vickery winning individual trophies. They will not be eligible to compete for the scholarships until high school. The high school team took the third place trophy, an improvement after just barely missing out on a trophy last year. Almost 170 students participated from Indiana to Tennessee.

"This is the second time we have competed in this tourna-

ment and it was bigger this year with all the scholarships on the line. We are very proud of our accomplishments and look forward to great results in the future," said Tim McHenry, chess coach. "Tennessee Tech in Cookeville and now Western both offer full-ride scholarships to chess players and our ultimate goal is to see a Monroe County student win one." The chess club is sponsored by Amanda Sherfey at the Middle School and operates under the auspices of the SOAR after-school program. Not pictured from the high school team are Luke Whitehead, Dusty Walker, Orry Hestand, Riley Turner and elementary school participant William Burroughs.

The middle school chess team took first place at the WKU Scholastic Chess Tournament. In the front row are Zander Birdwell, Quartermaster; JayJay Jones and Tristan Daniels. In the second row are Team Captain Harrison Froedge, Andrew Brown, Spencer Holland, and Aaron Vickery.
